

GRZENIA

The Art of Precision
since 1957

Individual

GRZENIA

The Art of Precision
since 1957

Natural beauty bathed in the shades of brown, accentuated with expressive finish of the highest quality wood. Magnificent illumination embracing mutually overlapping forms. Made for interiors with extraordinary design, for a person with sublime taste. Created with craftsman's precision, the safe becomes a little work of art itself.

Natural beauty bathed

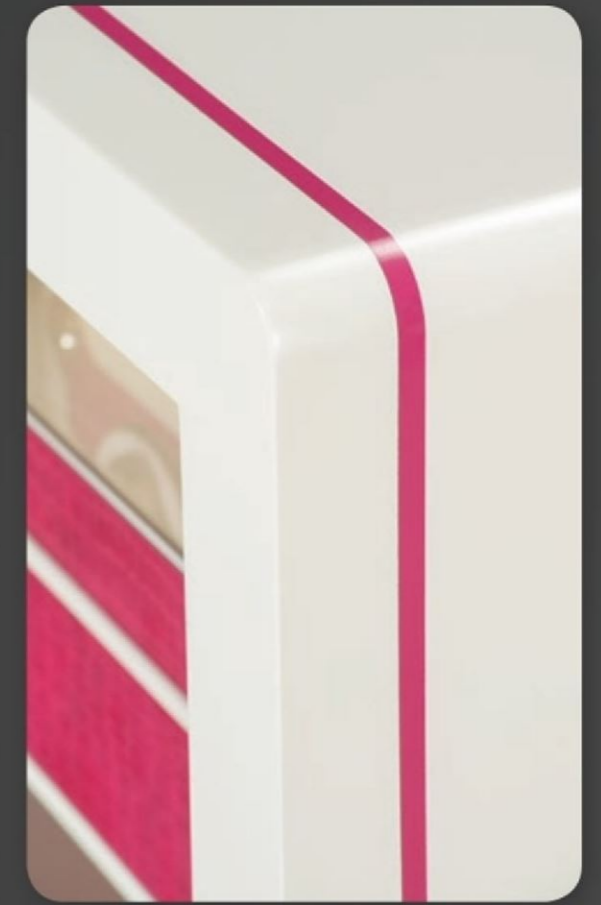

It is the customers who choose the type of wood and its finish which meets their refined tastes and corresponds to the interior design. When you open the door, you will be astonished by the rich abundance of forms and possibilities. Tested and trusted over the

years, our widely appreciated technology provides complete protection for your valuables. The interior of the safe is designed according to individual requirements of the customer: watch winders, shelves, LED lighting in any colour, caskets, specially tailored cases and additional jewellery boxes. These are made with astounding precision and delicacy.

in the shades of brown

Refined shape and a subtle mixture of white shades. The space is accentuated with a delicate outline. Interior geometry is like a refreshing breeze of freedom and luxury.

Breeze of freedom

This design is dedicated for those who prefer minimalism and secrecy. Solid colour and modern rounded edges of the safe are an expression of natural elegance. A gently contoured contrasting tone is a sign of style and uniqueness. Created with passion and incredible accuracy, the safe will perfectly fit in modern and minimalist interiors.

Locks and protections, selected individually to meet the Customer's expectations, guarantee the safety of valuable belongings. It is the customer's individual needs and remarkable taste that determine the choice out of the wide range of smart interior solutions as well as its type and aesthetic appeal.

and luxury

Classic refinement
and elegance on
the inside and
outside.

Classic refinement

Perfectly personalised, finished off with utmost precision and embellished with precious materials of individual choice, the interior of the safe will meet the needs of the most sublime tastes. We have prepared a unique offer for our most demanding customers: interior caskets embellished with... Swarovski crystals!

Refined casing in the colour and tone of one's own choice is in harmony with elegant interiors. You will be astonished by its subtle touch as well as its distinguished form reflecting 60 years of GRZENIA's tradition. Our brand dates back to 1957.

and elegance

GRZENIA

The Art of Precision
since 1957

Our each product is as
unique as our each
Customer.

Unique just like

A unique line of refined safes for those who value safety as well as unpretentious elegance. The colour, shape, type of locks (key locks, cipher locks, electric locks) and protections, finish and furnish of the interior are selected individually which guarantees a high level of product personalisation. Thus, our each product is as unique as our each Customer. If you want to be a member of the elite circle of those who own GRZENIA safes and do not worry about their valuable belongings, why don't you join today?

A line of smaller safes available in various colours. The front is made of a thick glass plate which adds even more shine.

our customer

Individual
Prestige

A modern form is combined here with tested and reliable technology and precision is combined with safety.

The latest generation of extremely durable safes. The casing is painted with varnish of the highest quality the colour and polish of which is chosen individually by the customer. Upon request, our safe can also be fireproof. What especially distinguishes this safe from other

ordinary safes is a specially designed cover for an individually adjusted lock. Like other designs, it is a registered design which guarantees that our Customers own a unique product created with utmost accuracy and according to European standards.

reliable technology

This unique safe, painted on the outside with varnish of the highest quality and the colour of one's own choice, contains a unique element of surprise.

Golden interior like

Upon opening, your eyes will see... a golden interior — just like in a treasure cave from *Arabian Nights* stories! It makes our customers feel unique and remarkable.

It is also an unquestionable evidence that one cannot compete with our products when it comes to safety as well as design.

in a treasure cave
